## FOREWORD

**T**HE Erimus Herd, which was founded as recently as 1944, has already achieved considerable success, which is not entirely unexpected, seeing that a very careful foundation was laid, mostly of Kirkton and Calrossie blood, a considerable number of which were purchased privately, with later additions from the good herd of Mr. John Barnes, of Aikbank, Wigton, and seeing that nothing but bulls of the highest quality have been introduced.

The following stock bulls have been used in the herd with success:—

**CLIPPER CAPTAIN** (326141)—a grand roan son of Lawton Field Marshal. He was 2nd in his class at Perth, and later, after winning several championships in England, was exported to the El Inca Herd in Argentina.

**CALROSSIE MOONSHINE** (328065) was used for a season, and then exported to the great Coonong Herd of Mr. Roy M'Caughey in Australia, where he sired many winners and champions.

**BALLATHIE COMMAND** (342592), 2nd at Perth and purchased for 2800 guineas, was used in the herd and subsequently exported to Argentina. It is a pity that this bull left England so soon. He was probably the best breeding son of the Perth champion, Pittodrie Banker, and the few females left by him in the herd have all been exceptional breeders.

**KIRKTON CHALLENGER** (344277) was purchased privately as a young calf, and quickly gained the reputation of being the best breeding son of Kirkton Baronet. His sons and daughters have been in great demand in all countries to which Shorthorns are exported. Important sons of his include Erimus Charlie, 1st at Perth and sold at 3800 guineas to Coonong, Australia; Erimus Donald, stock bull at Cruggleton; Erimus Emeritus, top-priced bull (6000 guineas) of his year, to Westdrums; Erimus Effect, sold privately to Messrs. Williamson Bros., Australia; Erimus Fokine, used within the herd for two seasons, and now stock bull at Chapelton; and Erimus Gallant, sold at 3400 guineas to Cruggleton. He is also grand-sire of Erimus Ghost, grand champion at the Royal Highland, Royal Northern, and R.A.S.E. Shows in 1953, and champion bull and Highland and supreme champion in 1954; Erimus Intrepid, considered by many to be Challenger's best son, a young bull that has been retained for use in the herd; and of many others that have gone to the Argentine and elsewhere.

**CALROSSIE EVENING NEWS** (375425), purchased at Perth for 4800 guineas, was champion bull at the Royal Show at Cambridge in 1951, and has already sired Erimus Horatio, a bull that went to Mr. Frank Hood, Kywanna, Australia, at a high figure last year, where he is giving every satisfaction; Erimus Hansard, 2nd at Perth this year and purchased for Uppermill at 3200 guineas; and Erimus Impetus, a young bull recently exported to the Argentine at a high figure.

**CRUGGLETON BALMORAL** (381877) is the latest stock bull to join the herd, and one to which several of the cows to be exposed have been mated. He is sire of this year's Perth female champion, and of other prize-winning and high-priced animals.

The offering consists principally of cows, many of them young cows, and includes the dams of Erimus Ghost, Erimus Gallant, Erimus Effect, Erimus Goshawk, and Erimus Horatio. As will be seen from the catalogue, the breeding of these females is of the best, and the sale presents one of those opportunities to acquire perfectly bred animals in grand, sound breeding condition. All home-bred females, other than heifer calves, offered have been calf vaccinated with Strain 19, and all have passed the blood test prior to such vaccination.

The reason for the sale is that Mr. de Quincey intends to move his Shorthorn Herd from Bowley Court Farm, Bodenham, to a very much smaller holding adjacent to The Vern, where he keeps his Hereford Herd. The cattle will be sold at The Vern.

The entire herd passed the Tuberculin Test on 30th July, 1954. Buyers from overseas are asked to study Test Charts, and buy what will pass for shipment to their respective countries. A re-test can be given to all buyers, and their purchases can remain on the farm at buyer's risk until the re-test is completed and shipment available. Such re-test to be carried out by a mutually approved Veterinary Surgeon within four weeks of sale date. Any re-tests will be at purchaser's expense.

Every effort will be made to meet the requirements of export buyers, and arrangements can be made to retain cattle purchased for export on the farm, where they will be kept free of charge, at buyer's risk, for a period of three months, and for a further three months at a charge of £1 a head per week. Thereafter, buyers will be required to make their own arrangements.

The cattle can be inspected before the sale by appointment.

All bull calves 10 months of age and over at the date of sale will be sold with a guarantee to leave stock. Any buyer wishing to make a claim under this guarantee must intimate such through the Auctioneers before the end of the month of January in the year following the sale. The seller will then appoint a qualified veterinarian to carry out a semen test. The decision of this person shall be regarded as final. In respect of bulls purchased for export no claim shall be valid unless made prior to shipment.

It shall be understood that this guarantee does not operate where a bull from an attested herd is sold to go to non-attested premises.

## CONDITIONS OF SALE

1. The Cattle will be exposed separately according to the numbers in the following Catalogue. The Auctioneers reserve the right to refuse any bid without assigning any reason. The highest offerer of each lot will be preferred to the purchase—each offer exceeding the former by at least one guinea.

2. Immediately after each purchase is declared, the risk of the animal shall be exclusively with the Buyer, and it is declared that until a settlement shall be made in terms of these Conditions the delivery of the animal shall be suspended. The right of property shall not pass until the price is paid.

3. Immediately after the Sale all lots must be paid for in cash to the Auctioneers. The price being paid, each lot shall be taken away at the Buyer's expense within one day after the sale thereof. Lots shall only be removeable from the Auctioneers' possession on a written order from their clerk, and any lot removed in contravention of this condition may be recovered *brevi manu* by the Auctioneers.

4. Should any Buyer fail to pay for and remove his purchase in compliance with the above Conditions, the Auctioneers in their option may either (a) sue the Buyer for the price and interest thereon at the rate of *Six per Centum per Annum* and for the keep of, and any other expense incurred by them in connection with such purchase, or (b) re-sell the Lot either publicly or privately and recover from the defaulting buyer the deficiency (if any) attending such re-sale and interest thereon as aforesaid together with the keep and all other expenses. In either case, the Auctioneers shall have the right to sue at their own instance without the consent of the Owner or Consigner, and no defence whatever in such action shall be competent to the Buyer who shall have recourse against the Owner or Consigner alone.

5. No undertaking of the Auctioneers or their servants to take charge of any animal after the Sale or to forward it to its destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of the foregoing conditions.

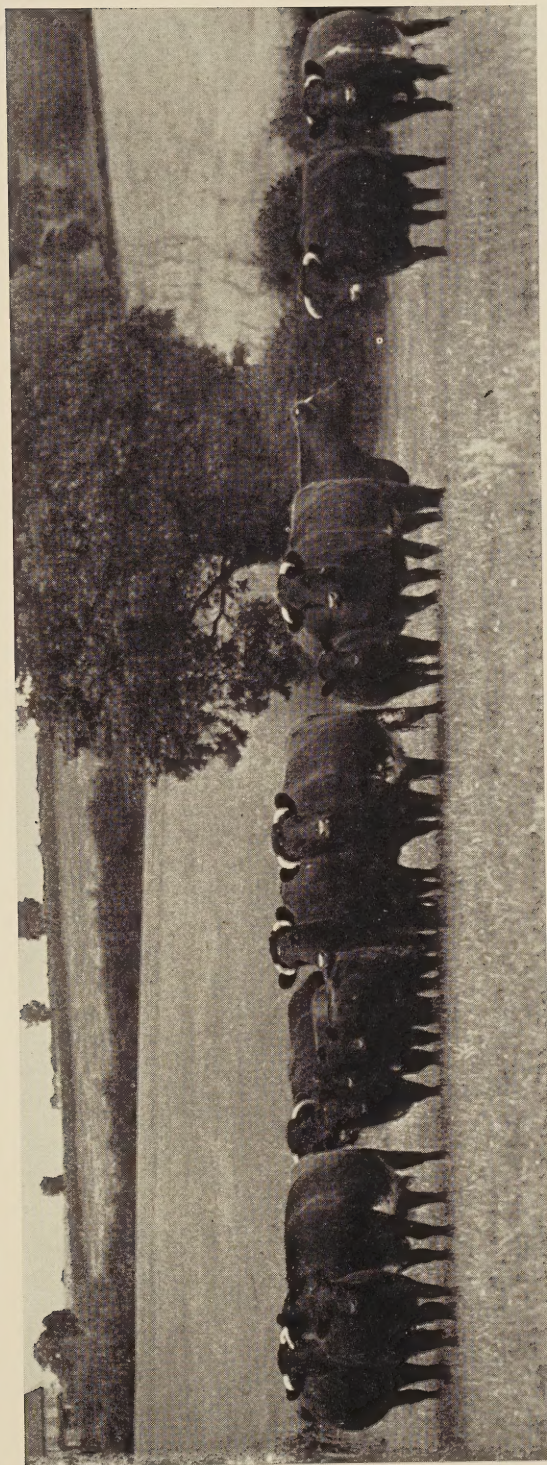

6. The Auctioneer is appointed Judge of the Sale, to whom are hereby submitted all disputes and differences of any kind which may arise at and in relation to the Auction, either between Exposers and Offerers or among Offerers themselves. His decision shall be final and binding on all parties.
